

## DCTV- PROGRAMMING YOUR REMOTE

1. Find the code for the TV you want to program in the "Manufacturer's Codes" of the accompanying remote instructions. \_\_\_\_\_
2. Turn on the TV.
3. Press **TV** on the remote control.
4. Press and hold **SETUP** until the red light blinks twice, then release.
5. Enter the first five-digit code for your TV. The LED blinks once as each digit is entered. If the code is accepted the light will blink twice. Note: If the light does not blink twice, repeat steps 3 -5 and try entering the code again.
6. Aim the remote at the TV and press **POWER**. The TV should turn off. If it does not, repeat steps 4 & 5 trying each code for your brand of TV until you find one that works. If you cannot find a code that works you may try "Searching for Your Code" below.

**Searching for Your Code** – There are two different remote control models. One model uses a 4 digit Infrared programming code and one model uses a 5 digit code. To determine your model, open the battery cover, remove the batteries and locate the model tag.

Units with model numbers that begin with "URC" use the 5 digit codes. Units without the "URC" use the 4 digit program codes.

### Remote with 5 digit code

1. Press **TV** once.
2. Press and hold **SETUP** until the light blinks twice then release.
3. Enter **9 9 1**. Remote will blink twice. Enter **1**. The light blinks twice.
4. Aim the remote at the TV and press **POWER**. The remote sends codes from its library to the TV, starting with the most popular code. If the TV responds, press **SETUP** once. The light will blink twice. If the TV does not shut off, press **Ch +** button until TV shuts off. Then push the **SETUP** button to lock the code.

### Remote with 4 digit code

1. Press **TV** once.
2. Press and hold **SETUP** until the light blinks twice then release.
3. Enter 9 9 1. Press **POWER**. If the TV shuts off press the **SETUP** button to lock the code. If not press **TV, POWER alternately** until the TV shuts off. Press the **SETUP** button to lock the code.
